14. Working fire extinguisher required, must be safely secured with in drivers reach
15. Looking for small or unimportant errors or faults will not be tolerated or allowed. We are aware that this rule book may not cover every situation or issue. Officials have final say
16. All cars must roll through tech and than line up

Demolition Derby Rules

1. Must be unibody front wheel drive 3,4,5,6 cyl
2. Car must be completely stripped,
3. Hoods must open during tech.
4. Must be factory drivetrain,
5. Street tires no mud grips, no tractor tires no forklift tires. Radials only
6. You may wire, chain, weld or seat belt doors trunk, and hood.(If welding plates can't exceed 3"x3"). 4 points of attachment on each door, trunk or hood. Hood must be bolted from hood to fender, no all thread through hood.
7. You may run a driver's door plate, or piece of 4 inch angle or 5 inch channel max
8. May Move gas tanks or leave under if in front of the axle.
9. Battery may be moved to the passenger floorboard secured and covered.

10. Bumpers must remain factory..
11. Stock bumpers only no welding
12. Suspension must stay stock, no aftermarket anything on suspension, must bounce.
13. 4-point cage is recommended
14. No creasing or pre bending of body
15. This class is a gut and go the car must remain stock
16. Yes you can run headers.
17. No welding on the car anywhere except for what's stated above. This is a fun easy stock build.
18. Must cut a 12 inch hole in the hood for hood suppression.
19. Computer and fuse boxes must remain under the hood.
20. Spray Foam - You may use a little spray foam around the computer, fuse box, etc. but any excessive foam or foam used to hide anything will have to be removed. Use common sense.

Josh Melton will tech derby cars.
